## TABLE OF DENTAL PROCEDURES

### **PLEASE READ THE FOLLOWING INFORMATION CAREFULLY FOR YOUR PROCEDURE FREQUENCIES AND PROVISIONS.**

The attached is a list of dental procedures for which benefits are payable under this section is based upon the *Current Dental Terminology* © American Dental Association. **No benefits are payable for a procedure that is not listed.**

- Your benefits are based on a Calendar Year. A Calendar Year runs from January 1 through December 31.
- Benefit Period means the period from January 1 of any year through December 31 of the same year. But during the first year a person is insured, a benefit period means the period from his or her effective date through December 31 of that year.
- Covered Procedures are subject to all plan provisions, procedure and frequency limitations, and/or consultant review.
- Reference to "traumatic injury" under this plan is defined as injury caused by external forces (ie. outside the mouth) and specifically excludes injury caused by internal forces such as bruxism (grinding of teeth).
- Benefits for replacement prosthetic crown, appliance, or fixed partial denture will be based on the prior placement date. Frequencies which reference Benefit Period will be measured forward within the limits defined as the Benefit Period. All other frequencies will be measured forward from the last covered date of service.
- X-ray films, periodontal charting and supporting diagnostic data may be requested for our review.
- We recommend that a pre-treatment estimate be submitted for all anticipated work that is considered to be expensive by our insured.
- A pre-treatment estimate is not a pre-authorization or guarantee of payment or eligibility; rather it is an indication of the estimated benefits available if the described procedures are performed.
